

GEO. ENGELMANN, M. D.

3003 Locust Street.

St. Louis, Mo., March 15 1878

J. Schrank Esq

Dear Sir

Thanks for the nice specimens  
of Ran. Frans & Alans you sent

They seem to be importations,  
of which the eastern coast is so  
rich, while our flora out here  
is not as much a deliberate  
yet, though we may have already  
a hundred foreigners naturalized  
here.

I don't know of any  
botanist here or in the  
region, who might exchange  
and I myself find too little  
time to devote to such botanical  
intercourse, and what I might  
have to give you is mostly not

new and fresh, 20 year old  
Texas plants air the like. But  
I might offer you a set of  
my American Journals, of which  
a few (incomplete ones) are left.  
Good specimens in flower & fruit  
and root if possible, is what I  
desire - and natives, not immigrants.

I send you the second and most  
important part of my oak paper.  
Of the first there may be a few  
copies left at Mr Cassino's at Salem  
who had from me a dozen or two for  
sale; but the second part is all  
you want.

Very truly yours,

G. Engelmann
